**Subject: Letter of Recommendation for Anthony Acosta**

To Whom It May Concern:

It is my earnest pleasure to endorse Anthony Acosta as a valuable and desirable professional. I was the Director of Personnel and Training for the International Security Assistance Forces Special Operations Forces in Afghanistan. Anthony was employed by DynCorp International, but reported directly to me as a course development advisor and curriculum developer.

Anthony was our subject matter expert on developing of intelligence, investigation, and surveillance materials for the Afghan General Directorate of Police Special Units. He performed his assignments competently and with commitment and enthusiasm. Anthony demonstrated his ability to work under pressure and to organize successfully to meet tight deadlines. His close attention to detail resulted in meticulous and accurate work. His strong interpersonal and communication skills allowed him to develop good working relationships with both his colleagues and community partners.

He was well regarded and recognized for the additional efforts he made to support our program and the multi-national community. He took the initiative to assume responsibility for office management, mail service, and automation support for the entire Special Operations Forces Partnering Cell. He volunteered countless hours of his personal time to coordinate morale, welfare, and athletic events that benefited hundreds of civilian and military personnel in the Kabul area.

Anthony was a great asset to this program and a faithful colleague. I highly recommend him for employment. Please contact me if you require any further information.

Yours sincerely,

Roland de Ubeda  
Général de Brigade  
Armée de l'Air Française
